Data Science Department   Feb 2022 - Apr 2022

- Collecting unstructured data and use it for analysis
- Flirting of irrelevant data and processing visualization based on relevant data
- Data visualization and their interpretation using Python, Graphs, Charts, Confusion Matrix, Diagrams, Histograms, Heatmaps

Education

University of AAB
Bachelor of Computer Science(Software Engineering)   2023/Present

Technical Skills

- Python
- Java
- Javascript
- Html & Css

- Web Scraping
- Django
- Requests
- Bootstrap 5

- Numpy
- Tkinter
- API
- Web app

- MongoDB
- Sqlite
- Software Development

Certifications

- Certified in Big Data Analytics   July 2023
- **PCAP** Certificated (Certified Developer), Python Institute   March 2023
- CISCO Academy Orientation   March 2023
- Certified in Machine Learning   February 2023
- Scientific Computing with Python , Freecodecamp   December 2022
- ICT & Digital Skills Training on Python   July 2022

Projects

- Quote API (https://quoteapi.pythonanywhere.com)
- Nes Magazine(https://nesmagazine.pythonanywhere.com)
- Wifi QR Code (https://wifiqrcode.pythonanywhere.com)
- Weather App (https://liveweather.pythonanywhere.com)
- University Software (https://github.com/Enesjashari)
- Machine Learning Predictions
- Sky E Commerce
- Todo app
